August 24, 2002

Dockets Management Branch  
Food & Drug Administration  
Docket OIP-0230  
Room 1061  
5630 Fishers Lane  
Rockville, MD 20852

To Whom It May Concern:

As a taxpaying citizen, I demand a moratorium on the domestic marketing and importation of genetically engineered (GE) fish until the environmental and human health risks are better known and protected against.

I also support a permanent ban on the release of GE fish into any open waterway, including net pens and ponds.

Yours truly,

*J.C. Englert*  
J C Englert

*Candace Englert*  
Candace Englert
